

Class Check-In iPad

Setup takes about **10 minutes**, once. After that students just tap their name.

Set up the iPad (once)

1. Connect to the gym Wi-Fi. Open **Safari** (the blue compass, **not Chrome**) and type this address exactly:

wyattfulkerson11-boop.github.io/asylum-checkin/

You should see the Asylum logo and "**Asylum Martial Arts.**"

2. Tap the **Share** button (square with an arrow pointing up) → **Add to Home Screen** → name it **Check In** → **Add**.
3. Close Safari. Tap the new **Check In** icon and leave it open for a minute on Wi-Fi. That lets it save itself so it still opens if the Wi-Fi drops.
4. Settings → Display & Brightness → Auto-Lock → Never, and leave the iPad plugged in.
5. Optional, to stop kids leaving the app: Settings → Accessibility → Guided Access → On, set a passcode. Open **Check In**, triple-click the top button → **Start**. Triple-click again and enter the passcode to get out.

Only ever open it from the Check In icon. Safari and the icon keep separate lists — names added in Safari won't show up in the icon.

Students

- **First time:** tap **I'm new**, type first and last name, **Save**. Only once — after that the name is a button.
- **Every class:** tap your name → tap every class you're here for → **Check in**. It remembers last time's classes, so a regular is two taps.
- **Parent with several kids:** tap **Several kids**, tap each name, then **Check in**.
- **Wrong name?** Tap **Not me**. A name with a ✓ has already checked in today; checking in again just adds classes.

Coaches

Tap **Coach** (bottom right) and type the coach PIN. Get the PIN from Wyatt — it's never written down here. The coach screen goes back to check-in on its own after 2 minutes.

- **Roster:** pick a day → **Share PDF** → AirDrop, Mail, Messages or Print. Grouped by class.
- **Spreadsheet:** pick a from and to date → **Share spreadsheet**. Opens in Excel or Numbers.
- **Classes:** one class per line → **Save classes**. These are the buttons students see.
- **Students:** **Rename** fixes a typo. **Remove** takes a name off the check-in screen; past attendance is kept.

Good to know

Names and attendance live on this iPad only. There is no copy anywhere else. Share the spreadsheet to yourself once a month as a backup.

- **Don't delete the Check In icon** and don't erase the iPad — that erases the names and attendance with it.
- It works without Wi-Fi. Sharing a PDF by Mail or Messages needs Wi-Fi; printing and AirDrop don't need the internet.
- If it ever says **"Saved data could not be read"**, or anything else looks wrong, stop and tell Wyatt.
